

## MATERIAL SAFETY DATA SHEET

NAME OF THE PRODUCT	<b>MASK CARBON SALICYLIC PEELOFF</b>
COMPANY	<b>CMED AESTETICS SRL</b>
DESCRIPTION	<b>MASK</b>
CPNP IDENTIFIER	<b>3593121</b>
QUANTITY	<b>200 ML</b>

### **COMPOSITION / INFORMATION ON INGREDIENTS**

The compositions indicated correspond to the representative framework formulations of the product category, as defined at European level by a group of experts composed of representatives of poison centers, competent authorities, business associations and Commission services. The framework formulations are provided for by Regulation (EC) 1223/2009 for the electronic notification of cosmetic products through the Cosmetic Product Notification Portal (CPNP), carried out in accordance with Article 13.

### **FORMULATION**

<b>CAS</b>	<b>INCI</b>	<b>FUNZIONE</b>
<b>7732-18-5</b>	AQUA	<b>SOLVENT</b>
<b>57-55-6</b>	PROPYLENE GLYCOL	<b>SOLVENT</b>
<b>40921-86-6</b>	HYDROGENATED POLYISOBUTENE	<b>CONDITIONING</b>
<b>9005-38-3</b>	ALGIN	<b>LEGANT</b>
<b>9003-04-7</b>	SODIUM POLYACRYLATE	<b>ABSORBENT</b>
<b>56-81-5</b>	GLYCERIN	<b>WET</b>
<b>69-72-7</b>	SALICYLIC ACID	<b>KERATOLITHIC</b>
<b>122-99-6</b>	PHENOXYETHANOL	<b>PRESERVATIVE</b>
<b>70445-33-9</b>	ETHYLHEXYLGLYCERIN	<b>CONDITIONING</b>
<b>1333-86-4</b>	CARBON (BLACK)	<b>COLORANT</b>
<b>51981-21-6</b>	<b>TETRASODIUM GLUTAMATE DIACETATE</b>	<b>CHELATING</b>

### **HAZARDS IDENTIFICATION**

When used according to the instructions provided by the manufacturer, the product is safe for humans and the environment. The following Information is relevant in case of misuse or accident.  
Contact of the product other than the eyes may cause eye irritation. Ingestion can cause modest irritation to the gastrointestinal tract.

### **FIRST AID MEASURES**

Inadvertent contact with the eyes: remove any contact lenses, rinse immediately with plenty of water lukewarm; if irritation persists, consult a doctor.

Involuntary ingestion of large quantities: do not induce vomiting. If appropriate, consult a Poison Control Center or physician.

Massive inhalation: take the person to fresh air. If discomfort persists, consult a Poison Control Center or doctor

### **FIRE FIGHTING MEASURES**

Not dangerous product

### **ACCIDENTAL RELEASE MEASURES**

Collect the leaked product with rags, convey into suitable containers for disposal according to the regulations. Wash contaminated areas with plenty of water. Never return spilled product to the original container. Never reuse the spilled product.

### **HANDLING and STORAGE**

#### Handling

- carefully follow the instructions on the package or on the attached leaflet / band / tag.
- avoid any type of use not foreseen in the instructions.
- avoid mixing with other products or similar products or with different substances not provided for in the specific instructions.
- never put the leaked product back in the original containers for a new use.
- Keep out of reach of children.

#### Storage

Store in dry and well ventilated places (room temperature). Do not store or use the product near open flames or heat sources or electrical appliances or in direct sunlight. Do not store the product at temperatures below 5 ° C and above 35 ° C. Close the container well after use.

### **PERSONAL PROTECTION / EXPOSURE CONTROL**

In the event that the Employer identifies risks that cannot be avoided by other means, he is required to provide workers with adequate Personal Protective Equipment (PPE) (Article 77 of Legislative Decree 81/08). The PPE must comply with the rules provided for by Legislative Decree 475/92 (Article 76 of

Legislative Decree 81/08). The use of PPE provided by the Employer is mandatory (Articles 20 and 78 of Legislative Decree 81/08) " .

The work environment must be adequately ventilated, possibly with mechanical air exchange. The points where emissions of vapors, gases or dusts, or spills of substances may occur, must be set up in distinct areas, equipped with localized extraction systems or collection systems. " (Title II of Legislative Decree 81/08)

#### PHYSICAL CHEMICAL PROPERTIES

DESCRIPTION	VALUE	METHOD
APPEARANCE	GEL	VISUAL
COLOR	BLACK	VISUAL
SMELL	CHARACTERISTIC	OLFATTIVE
SHAPE	GEL	
Ph a 20°	4 – 4.5	STRUM
Viscosity 20° C mPsa/sec	ND	STRUM
Density a 20° C	ND	STRUM

#### STABILITY AND REACTIVITY

Stable product at environment temperature

#### DISPOSAL INFORMATION

With regard to the disposal of cosmetic products, the relevant legislation is Part Four of Legislative Decree 152/06 (Environmental Code) and subsequent amendments. For disposal purposes, non-hazardous waste from artisanal activities (in the case of a hairdressing or beauty salon these are empty used bottles or containers) can be assimilated to urban waste if the Municipality to which they belong has implemented the provisions set out in art. . 198 of Legislative Decree 152/06 (Environmental Code) which lists the competences of the Municipalities.

On the basis of Part Three Section II Title III and IV of Legislative Decree 152/06 regarding water protection and regional provisions, professional hairdressing activities can be classified as civil settlements whose waste water can be assimilated to waste water domestic and placed in the sewer as such, as long as they comply with the regulations issued by the local authorities (eg Municipalities and Consortia) that manage the public sewer system.

### **REGULATORY INFORMATION**

The finished cosmetic products are manufactured and marketed in compliance with Regulation (EC) 1223/2009 and subsequent amendments. Finished cosmetic products are specifically excluded from the scope of the Community legislation on dangerous substances and mixtures (Regulation (EC) 1272/2008). They are also excluded from the provisions of Title IV of Regulation (EC) 1907/2006.

If the need to activate health surveillance arises from the Risk Assessment (Article 28 of Legislative Decree 81/2008), the employer must appoint a competent doctor (Article 18, paragraph 1, letter a)) to submit workers to the pre-employment and periodic visits provided for by the law (Article 41 of Legislative Decree 81/2008). Workers are obliged to undergo health surveillance prescribed by the competent doctor (Articles 20 and 78 of Legislative Decree 81/08). "

### **OTHER INFORMATION**

This information refers to the current state of our knowledge. All the information reported on the sheet regarding the composition and the chemical-physical properties are provided exclusively for correct handling and use of the product and for any interventions in case of emergency. They do not indicate the correct composition of the product (shown on the packaging) nor do they represent any sales specifications.
